

## Byrnes Paris-Bound, Vows A Just Peace

WASHINGTON—(UP)—Three-thousand persons crowded the Washington airport yesterday to see President Truman bid goodbye to Secretary of State James F. Byrnes and his delegation which took off by plane for the Paris Peace conference.

During a colorful ceremony Truman assured Byrnes that the entire United States government—executive, judicial and legislative—"wished Mr. Byrnes God-speed" and added that Byrnes had the support of the whole country in his efforts to "seek peace founded on the Atlantic and United Nations' charters."

Truman Accompanies  
Previously Truman had accompanied Byrnes to the airport in a motor procession, whose route was lined by additional thousands, mostly government workers who had received a special holiday for the occasion.

Byrnes spoke briefly at the airport thanking Truman for his presence.

PARIS—(AP)—Leading diplomats and a sprinkling of military experts from 21 nations will meet in the Luxembourg palace today at 1500 GMT (11:00 p.m. today, Manila), to open the debate on peace treaties that will shape the future of 85,000,000 inhabitants of five ex-enemy countries.

ence, adding that the American people were determined "never again to return to a policy of isolation."

He said that the American position at the peace conference was far stronger than at Versailles. He said: "Then we were badly divided. This time there is no division between the Executive and Congress regarding the conference. There is no division between the great political parties. We are of one mind."

"We know that there can be no security in isolation."

Radio Statement  
Later, Byrnes, in a statement on the Paris Conference read over the radio by Senator Tom Connally said, "I know many who believe it would have been much better if the four principal allies had not gone to the conference with agreed texts."

"But peace treaties that fix boundaries cannot be made effective unless they command the assent of the principal allied states. Unfortunately in a world where national states jealously guard their sovereignty there is no ideal peace-making procedure — it is important to begin to withdraw occupation troops wherever the security of the world permits."

"It is important to fix the reparations bill so that the defeated enemy can begin to pay off. It is important to get on with the business of providing more food and housing and clothing."

Avert Atomic Suicide  
"Not until these things are accomplished will the people themselves begin to remember how precious peace really is and make felt their universal determination not to commit atomic suicide."

"As long as rivalry for Trieste between the Yugoslavs and Italians continues to mount in intensity and bitterness and undermine unity among the larger powers, it is hard for everyone to remember the basic truth that they must hang together or they will hang separately."

"Only in calmer days when men are not blinded by anger and suffering, can they see what any child can see—that their interest in peace is one and indivisible."

## 'Amber' Lead Replaced

HOLLYWOOD—(UP)—British Actress Peggy Cummins, who was hired for the title role in "Forever Amber" after an international search and then fired when she was one-third finished, today sadly turned over her star script to dark-haired Linda Darnell.

Twentieth Century-Fox studios announced yesterday that when shooting on the \$5,000,000 boudoir epic resumes in September Miss Darnell would be in Amber's lead. Otto Preminger would be the new director and nearly every other actor, would be replaced.

Cornel Wilde kept his part as the male lead.

More than 100,000 feet of film had been shot at a cost of \$500,000 three months ago when the studio announced it was suspending production because the movie of Kathleen Winsor's spiky best-seller "fall-

## GUARD AGAINST KIELCE POGROMS

POISH SOLDIERS, armed with rifles, are shown seeking to guard a Jewish Community house in Kielce, Poland, after the recent pogroms in which 40 persons were killed. Since then, refugees seeking to escape over country roads have been shot down and government efforts have been unable to halt other outbreaks of extreme violence. (International)

## Battle Looms Over Terms Of EM Leave Pay Bill

WASHINGTON—(INS)—House and Senate conferences on the terminal leave pay bill held preliminary meetings and recessed until today, when they will hear the Budget Bureau representatives explain the legislation's effect on the fiscal program.

Rep. Thomson (D.-Tex.) Chairman of the House conference in the absence of Rep. May (D.-Ky.), said that today's session was entirely taken up with explanations of the Senate bill.

He said that the House conference are not ready to make any concessions.

The House voted to give ex-GIs cash payments for unused leave while in the service, at the rate of two and one-half days per month, but not exceeding 120 days in all.

The Senate rejected the House proposal to pay cash, after being informed that the administration regarded the proposal as being highly inflationary.

Instead it voted to give some 12,000,000 former GIs bonds maturing in the future, and bearing two and a half per cent interest.

Bonds would not be negotiable pending maturity. Those entitled to less than \$50 would receive cash.

## Bernard Shaw, In Caustic Mood, Ages Dapper 90

AYOT ST. LAWRENCE, England—(UP)—George Bernard Shaw was 90 years old today, and by his own crusty definition the fuss over the occasion was an "unbearable" lot of foolishness.

A motley procession of pilgrims came to the Shaw home here in Hertfordshire to pay homage to the man they regard as the greatest living philosopher and playwright.

GBS himself peered with strangely youthful blue eyes under the world famous eyebrows at his visitors.

"I don't like this," he cried petulantly, pounding his cane on the ground. "I never celebrate birthdays. I don't like congratulations. I don't give interviews. Although," — his eyes twinkled — "I may have been quoted once or twice."

And so he came to his 90th birthday anniversary with the world still unable to tell for sure when his tongue is in his cheek.

Of the visitors straggling irrespectively toward his house, Shaw snorted: "They've come to see the animal

## Military Loan

WASHINGTON—(AP)—President Truman in a letter to Rep. Sam Rayburn (D.-Tex.) Saturday, asked Congress to provide \$19,750,000 to give as a military aid to the Philippines next year. Truman's letter also said the War department plans to maintain a regular army of 37,000 men in the Philippines during that year.

## Pauley Asks Reduction Of Jap Industry

TOKYO—(AP)—At least a half-dozen more Japanese industries which the nation will lose as reparations soon will be taken under control by the occupation forces.

SCAP officials declined to state specifically which industries are to be taken over, but a study of Pauley's interim reparations recommendations indicate some of the following as certain to be affected:

Machine tools, shipyards, steelworks, coal burning, electric generating plants, aluminum and magnesium plants and certain chemical plants.

The industries which will be taken over will join the 390 aircraft plants, arsenals and technical laboratories which were placed under Allied custody by SCAP last January.

## Half Capacity

Pauley's interim reparations recommendations suggested removal of one-half Japanese capacity for machine tools, equipment and accessories for 20 shipyards, one-half of Japan's coal burning, electric generating plants, 20 caustic soda factories and all the capacity for the production of aluminum.

De-industrialization along such lines would not hamper Japan, Pauley asserted. He said Japan had more plants and equipment than its rulers ever allowed for the civilians to use even in peacetime.

Those industries which will be taken over will be put under jurisdiction of the Eighth Army and the commander of naval activities in Japan.

Work and production will be halted in some plants, reduced gradually in others and probably continue in balance — such as the power generating plants — until the actual physical property is taken.

## Blandy Seeks Scuttling Of Jap Battleship

OFF BIKINI—(UP)—The Japanese battleship Nagato, which has survived two atom bombs, may eventually be towed out to sea with other survivors in the target fleet and sunk in the traditional manner with naval gunfire and torpedoes, it was learned yesterday.

Vice-Adm. W. H. P. Blandy, "Operation Crossroads" director, said he will seek permission from the chief of naval operations in Washington to destroy the tough Japanese warship and other unneeded survivors, but possibly not including the German cruiser Prinz Eugen.

The Nagato was listing only slightly and not eight per cent as previously erroneously reported.

A daring tug raced into the radioactive lagoon and grappled with the anchor chain of the attack transport USS Fallon. The tug succeeded in hauling the ship three miles and in beaching her at a nearby island alongside of the destroyer USS Hughes before she could sink. Blandy ordered the salvage because the Fallon demonstrated the extent of the damage caused by the fall of the 1,000,000-ton water-spout.

## Sinking Of Arkansas Termed Most Dramatic

KWAJALEIN—(INS)—Naval officers who took pictures of the underwater atomic explosion stated that the pictures show the battleship Arkansas being lifted bodily from Bikini lagoon and broken completely in two pieces before sinking.

The officers, who requested that their names be withheld, said that the dramatic pictures were taken from the USS Sator and they did not know whether or not they would be released to the public.

They termed the Arkansas photograph showing the battleship splitting in midair as the most dramatic photograph in history.

## In Memoriam

Flags throughout the AFWEST-PAC command are being flown at half mast in commemoration of the death of former Philippine President Manuel Quezon.

## U.S., Britain, Canada Agree To End UNRRA In 1947

WASHINGTON—(AP)—Britain, Canada, and the United States were said Saturday night to have agreed to stand by their decision to end UNRRA after the first quarter of 1947.

The decision which in effect reaffirms the policies of the nations from which UNRRA draws its chief support was made informally in conversations between William L. Clayton, United States Assistant secretary of state, Lester B. Pearson, Canadian ambassador to Washington, and Roger Makins, a member of the British embassy staff.

Clayton said Saturday night that improved harvests on every continent made the extension of UNRRA unnecessary after early next year.

## Car Ceilings As Of June 30

WASHINGTON—(INS)—The newly revived OPA today announced that ceiling prices of both new and used passenger automobiles that were in effect on June 30th would be resumed with the enactment of the new price control law.

At the same time Price Administrator Paul Porter assured the nation that OPA would keep prices as close as possible to their June 30th levels, and would move swiftly "in the direction of getting rid of controls."

Porter, in a speech over American Broadcasting Company in New York, outlined OPA aims and policies dur-

## Starvation Menu

IN FAMINE stricken countries, one man's leftovers become another's meal. Above, in Vienna, Austria, a hungry man resorts to "scavenging" himself plan in the refuse piles. Shipments of UNRRA to Austria and other countries make such scenes

News Briefs

TOKYO — (AP) — Finance Minister Tsuman Ishibashi told the Diet the government was not contemplating taxation of imperial household properties.

USINGEN, Germany — (AP) — United States military government officials said Saturday 16 Poles had been sentenced to prison terms from 30 to 39 years for shooting Sergeant William Morrow and George Young.

AMSTERDAM — (AP) — The Communists emerged Saturday as the strongest party here after counting up 136,426 votes of the 395,000 total cast in the elections Friday.

JERUSALEM — (AP) — An armed band Saturday night made an attack on the military detention barracks in Jerusalem's Telhieh quarter, where police are believed to be detaining some of the 370 Jews rounded up Friday.

WASHINGTON — (UP) — The House yesterday passed and sent to the Senate a measure providing for a loan of \$75,000,000 to the Philippines during the period ending July 1, 1947.

WASHINGTON — (UP) — The State department revealed Saturday that it sent a note to Russia blaming the Soviets in large part for the industrial and financial chaos in Hungary.

CHICAGO — (UP) — William Helrens, 17-year-old university student, was indicted Saturday for kidnaping and killing six-year old Suzanne Degnan and murdering her mother WAVE Frances Brown.

BUDAPEST — (AP) — A Hungarian informant said Saturday the Russians had instructed Hungarian officials to "go even harder" on Hungarian boy scouts and Catholic youth groups.

WASHINGTON — (AP) — Richard Britnik, loaning by the state department to the Philippine government for one year as Roxas' adviser, departed Saturday and is due in Manila on Wednesday.

TOKYO — (UP) — The restoration of the Salvation Army for Japan will be formally announced by the former national headquarters here on September 4, it was learned yesterday.

VIENNA — (UP) — The Russians have arrested seven Austrian officials in connection with the transfer of German property to the victors, an Austrian government spokesman announced yesterday.

PORT HOPE, Ontario — (UP) — The production of uranium for atom bombs and the production of radium for science may be halted at the Eldorado refinery within a few hours as a consequence of a strike today at a nearby sandash plant.

Missing Medical Supplies Prompt Investigation

YOKOSUKA — (AP) — Japanese reparation shipping authorities today began investigating the disappearance of \$72,000,000 yen worth of medical supplies, including quinine, which was sent from Bangkok to Uraga aboard reparation vessels.

Hotel Disasters Sour Nationwide Fire Prevention

CHICAGO — (UP) — Two mid-western hotel fires which took 80 lives in recent days made the nation fire-conscious and prompted strict inspections that revealed widespread violations of fire laws in many cities, a survey showed.

Some hotels, theaters and night clubs have been closed as a result of city and state inspections; lawmakers in several cities have recommended drastic revision of fire ordinances and fire-littery travelers

Fire In Atlanta

ATLANTA — (UP) — Fire broke out Saturday night in the ninth floor of the 11-story Piedmont hotel in the uptown business district.

The Piedmont is one of the oldest hotels in the South. Hotel guests evacuated the building in an orderly manner.

have begun checking fire departments to determine "which is the safest hotel in town" before registering for a room.

Big Job The checks up on fire hazards in hotels, apartment and office buildings presented a gigantic task for fire department officials.

In New York City authorities assigned additional inspectors to check 600 hotels for inadequate exits and other hazards, with particular attention to hotels built prior to 1916 when the present building code became effective.

Chicago officials, still attempting to determine the cause of the La Salle fire, closed the 200-room Loraine hotel, and ordered the shutdown of two theaters and several night clubs.

The historic Walton hotel in Philadelphia was closed for failing to comply with recommendations ordered prior to the midwest hotel fire.

Loss of Work Time Due to Strikes Ebbs

WASHINGTON — (UP) — Lost time due to labor troubles ebbed to its lowest point in June since the war ended, the Labor department reported yesterday.

The report said that throughout that month, only 3,280,000 man-days of work were lost in 263 strikes.

The contrasts favorably with the peak in February when 21,600,000 man-days of idleness were reported.

The past six months' total lost time, however, is the highest in history. It totals 99,500,000 man-days or 3.29 per cent of available work time.

The opening discussion of Russia's control plan was held at a closed committee meeting of the United Nations Atomic energy commission.

Gromyko declared that the continued production of bombs is "impossible to reconcile" with the task of using atomic energy for peaceful purposes only.

John Hanzcock, American delegate, said that the United States agreed in principle to outlawing atomic weapons, but insisted that it must be joined with a workable and effective control plan.

Gromyko cited only one contraindication by each nation within six months of ratification of the plan to provide "severe punishment" for violations.

He did not repeat his demand that the Security Council in which the Big Five have veto powers, should be the agency to enforce prohibitions against the use of atomic weapons.

STARS WED—Motion picture stars Anne Baxter, 20, and John Hodiak, 32, are pictured here as they were married in a ceremony in the garden of the home of the bride's parents, Mr. and Mrs. Kenneth Baxter, Dr. Herbert Booth Smith, minister of Burlingame's Presbyterian church officiated. After the wedding the couple set off for Colorado Springs, Colo. for a two-week honeymoon.

Jerusalem Blast Toll Rises; Twenty-Five Still Missing

JERUSALEM — (UP) — The King David death toll rose to 80 persons yesterday as rescue workers continued to dig into the hotel debris in search of bomb victims.

It is likely the number of known dead will reach 105 when the search is concluded several days hence. Twenty-five persons still missing now are considered dead.

NLRB Action Urged To Avert Coast Walkout

SAN FRANCISCO — (INS) — Efforts to avert the threatened strike of 1,000 longshoremen walking bosses on the Pacific Coast centered around the National Labor Relations Board in Washington.

An appeal was enroute to the NLRB urging it to take swift action to avert the strike set for next Thursday.

In making the appeal, federal conciliator Frank Wang said attempts to bring shipowners and longshore officials together have failed.

The longshoremen bosses charged that the shipowners were discriminating against them in the matter of retroactive pay and other provisions granted to the longshoremen, and claimed that shipowners were avoiding meeting with them.

Meanwhile officials of the Pacific Waterfront Employers Association said that retroactive wages payments of approximately \$3,000,000 will be available to CIO longshoremen in San Francisco about August 7th.

They said that payments in other coast ports will be made at the earliest possible date.

Longshoremen still have not signed the extension of their current contract to next June. They have voted to strike if the next agreement is not signed by September 30th, when the old contract expires.

PARIS — (UP) — Espirite American novelist Gertrude Stein died yesterday in the American hospital.

Salon Seeks End Of Aid to China

WASHINGTON — (AP) — Representative Hugh De Lacy (D-Wash.) declared Saturday the United States has transported nine Chinese national government armies into Manchuria to fight Communist forces.

De Lacy said in a House speech wherein he urged the immediate withdrawal of American forces from China and held the United States program of aiding the nation militarily.

De Lacy added that the "conclusion to which we are reluctantly driven" is that the chief result of general Marshall's efforts to achieve peace in China has "been to win time for Chiang's cliques to pile up supplies, and their armies moved into position by American ships for further fighting."

Siam King, Mother Testify At Inquest BANGKOK, Siam — (AP) — Eight hours of testimony by King Phumiphon Aduldet of Siam and his mother Friday failed to throw any light on the death of his brother, Ananda Mahidol in the royal palace at Bangkok June 9.

Relief Enroute to Hungry Hunan Via Rail, Truck

SHANGHAI — (AP) — By road and rail, immediate relief for hungry Hunan was on its way this week as the Canton-Hengyang railroad resumed operation and 21 supply-laden trucks of the CNRRA highway transport's trail-blazing convoy rolled into Kukung, Kwangtung province.

It is now expected that 80 to 100 tons of desperately needed foodstuffs can be shipped to Hunan daily.

Supplementing rail cargoes, this history-making convoy—first of 10 destined for Luechow via Kwangtung, Hunan and Kwangsi provinces—on July 1 reached Kukung, 201 miles north of Canton, to complete the first leg of a 700-mile mercy journey.

Loaded with 60 tons of supplies, including 47 tons of rice, five tractors and two truckloads of medical supplies, the convoy went slowly across the Pai River on a crude hand-poled barge to rest momentarily in CHT's Kukung yard after three days of climbing and dipping over the Western Mountains' treacherous skyline roads.

Dangerous Journey Convoy commander Edison H. Clements, who nursed the trucks over the "corduroy roads", mud-holes covered with loose, poorly-filled tank traps, perilous hairpin mountain curves, downed telephone lines and near washouts, announced that the convoy would push on into Hunan as soon as the last truck had been carried across the river.

Racing the last 108 miles in one day, the convoy passed un molested through dangerous bandit territory south of Kukung. The area around Yunnan, where bandits are reported to have been particularly active recently, was heavily patrolled by troops. Snipers were posted on every hilltop along the convoy route.

Part of the remainder of the hotel will be blasted with dynamite today as a safety measure.

Arab leaders in Palestine met yesterday to draft in advance their strongest rejection of the Anglo-American federalization - partition plan for Palestine.

Jewish leaders were awaiting the return of Dr. Chaim Weizmann, Zionist leader, before acting, but the present trend demands the liberation of all Jewish agency leaders before the partition plan is even considered.

In Washington, the White House announced that President Truman was studying the Anglo-American experts' proposal "partitioning Palestine between Jews and Arabs under a strong British central authority in Jerusalem."

Sister Kenny Faces Epidemic In Minneapolis MINNEAPOLIS — (AP) — Sister Elisabeth Kenny returned from Australia Saturday to find her adopted home city in the grip of an infantile paralysis epidemic.

Within an hour, she was at her desk in Kenny Institute, actively directing the polioepidemic treatment which she originated.

She said, "I will do everything in my power to help."

In New York, the national foundation for infantile paralysis reported the disease had reached "alarming proportions" in Minnesota. It said 523 cases with 28 deaths had been reported.

Texans Go To Polls In Heated Primary

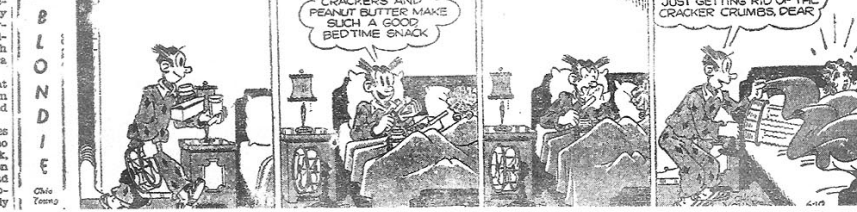

DALLAS, TEXAS — (UP) — Some 1,000,000 Texans went to the polls Saturday in the noisiest and most bitter Democratic campaign ever held in this state.

Issues at stake are Negro segregation, communism, religion and education.

More than 150,000 Negroes are eligible to vote for the first time. Twelve candidates seek the gubernatorial nomination.

In the senatorial race, Sen. Tom Connally, who made only one campaign speech, looks an easy winner over four opponents.

House Speaker Sam Rayburn and five other Texas congressmen are unopposed.

NATIONAL TENNIS CHAMPION Frank Parker (right), received a trophy for the National Clay Courts tournament from Chairman Keaton Deimling (center), after he had defeated Billy Talbert (left), of Wilmington, Del., 6-4, 6-4, 6-2, to win the singles title. (Press Association)

# CASTOFF BROOKLYN TWIRLER SNAPS DODGERS' WIN STREAK

NEW YORK (AP)—Fritz Ostermueller, former Dodger pitcher traded away to the Pittsburgh Pirates, got revenge when he snapped the league-leading Bums' winning streak at six games Saturday night. Ostermueller was in command of his ex-teammates all the way, emerging with a 5-0 decision. The loss cut the Dodgers' lead over the idle St. Louis Cards to one full game.

## Entry Blanks Mailed For Women's Tourney

NEW YORK (AP)—The United States golf association has begun mailing out entry blanks for its forty-sixth women's championships, to be played Sept. 23-28 at the Southern Hills country club in Tulsa, Okla. Deadline for receipt of entries is Sept. 5.

The tournament will be played on the customary pattern, with 18-hole qualifying rounds the first two days, from which the 32 low scorers will go into match play. There will be two rounds of 18-hole matches on Wednesday, Sept. 23; the quarter-finals and semi-finals over the same route the next two days, and the final at 26 holes on Saturday Sept. 28.

## Osborne Upsets Betz

# Jailers Score Exciting 7-0 Win Over Fighting MP Bloodhounds

By RUDY GOFFREDO  
Packers Sports Writer

For the third time in as many weeks, the Sweat bowl football league lead has changed hands, the 738th MP Jailers taking over first place Saturday afternoon by virtue of their 7-0 win over the 1123rd MP Bloodhounds at Rizal football stadium.

Living up to the name tagged on them after their first win, the "Opportunist Jailers" again capitalized on a break to score the Super Service

**Super Service**  
BOSTON (UP)—For \$15, summer tourists can fly from Cape Cod to Boston, take in the Braves' night game and be back home in bed within a half-hour after the last man is out.

**Ex-Canadian Pilot Registers Upset In Links Tourney**  
DENVER, Col. (UP)—Rudolph Horvath of Windsor, Canada, the only Canadian entered in the National Public Links golf tournament, scored one of the most surprising upsets of the meet yesterday when he eliminated Bill Welch of Spokane, Wash., the defending champion, 2 up, in the second round.

Another major upset occurred when Jimmy Clark, Long Beach, Calif., the ex-Marine who broke all USGA amateur tournament records by qualifying with a sensational 124, was knocked out in the first round of match play, 2 and 1, by another Long Beach player, Marshall Holt.

Horvath, a pilot in the Canadian Air Force for four years and now a pencil salesman, said after his victory over Welch, "It was just lucky."

The match ended when Welch missed a putt for a birdie on the 18th green.

The only other ex-champion entered in this year's tourney, Carl Kaufman of Pittsburgh, who won in 1927, '28, '29, failed to qualify.
